

Traffic Management

The 'us' - Utility Services Traffic Management may have only commenced in June 2005 but its management team have 18 years experience in the industry.

Our Traffic Management team is very dedicated to safety, for its clients, workforce and the public.

The group has been established with a fully equipped new fleet of vehicles and the latest solar powered "C" class arrow boards.

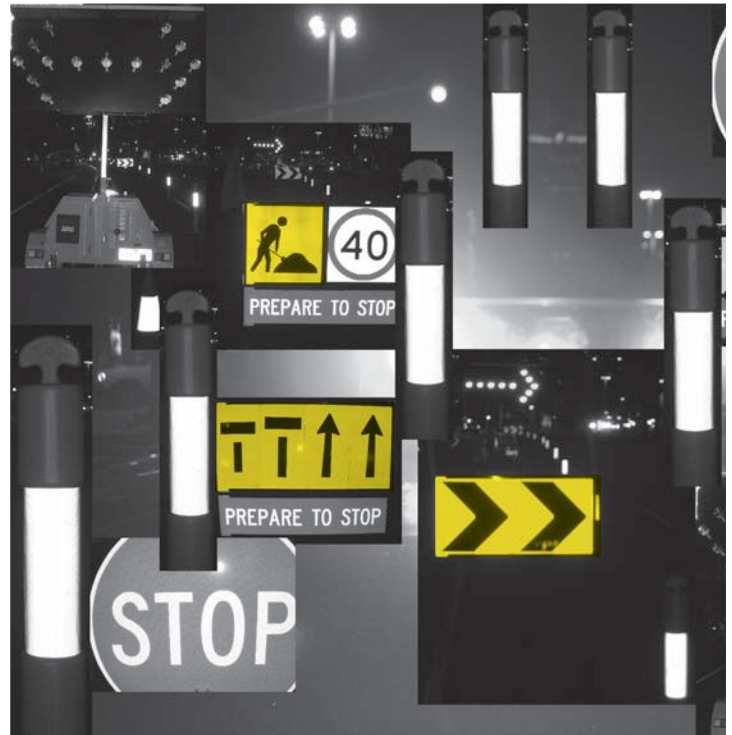

All Traffic Management Plans are computer generated for the relevant authorities and clients.
